Work Experience

Science Based Targets initiative Oct 2025 – Present | Berlin, Germany
Senior UX Designer

- Designing and improving the SBTi Validation Portal to simplify complex climate target submissions and validation workflows.
- Design Ops: Built a structured UX foundation, reducing post-production usability issues by **98%**.
- Lead UX research across companies, validators and stakeholders using in-app surveys, heuristic evaluations, user behavior analytics and user interviews to identify key friction points and prioritize improvements in the Validation Portal.
- Driving design system adoption across the Validation Portal and Services/Charity websites using consistent branding and Shadcn design tokens with accessibility standards (WCAG).

Flexera Sep 2024 – Sep 2025 | Berlin, Germany
Senior UX Designer

- Designing solutions for a B2B SaaS FinOps product enabling organizations to monitor, manage, and optimize multi-cloud costs.
- Designed **agentic AI-driven cost anomaly detection** that proactively identifies irregular spend patterns, performs root cause analysis, and surfaces contextual recommendations, enabling users to take timely action while reducing manual investigation efforts.
- Designed shared cost allocation and discovery workflows for enterprises and MSPs, enabling accurate expense attribution across teams and clients.
- Designed a unified, **agentic AI-powered cloud tag management system** that proactively discovers and monitors tag inconsistencies, autonomously suggests and applies tagging rules based on learned patterns, and enables human-in-the-loop validation, ensuring scalable governance and reduced operational overhead.
- Contributed to Design System with a no-code Rule Builder component for nested rules, enabling users to create rules without relying on APIs.

Royal Cyber Inc Feb 2023 – Jun 2024 | Berlin - Remote
Senior UX Designer

- Led UX design for a B2B SaaS cloud security and posture management product, enabling vulnerability identification and compliance remediation, resulting in a **30% reduction in security incidents**.

- Collaborated with cross-functional teams to define strategies and create a scalable, accessible design system.

3DesignThinkers

Sep 2022 – Jan 2023 | Berlin - Remote

Freelance UX Researcher

- Led user research initiatives for an e-learning platform offering design and preparatory courses.
- Developed a qualitative UX research strategy using user interviews to extract insights and create recommendations for Jobs to Be Done, friction points, and prioritization.

Wipro Limited

Senior UX Designer

Nov 2019 – Jul 2022

Pune, India & Czech Republic

- Conducted in-depth user research to understand user behaviors and preferences, enabling the creation of low-fidelity and high-fidelity prototypes. These efforts significantly improved the HMI usability for Manufacturing Execution Systems (MES).

Project Engineer

Apr 2017 – Oct 2019 | Pune, India

- Developed REST clients for e-commerce web development and collaborated closely with the UX designers for seamless integration.

Selected Work

Spektrum Akademie Zeitplaner [🔗](#)

- Conducted user interviews and stakeholder consultations to understand the needs of admins, teachers, and students, iteratively refining wireframes and high-fidelity designs for usability and accessibility.
- Designed scheduling solutions that significantly **reduced manual tracking efforts by 90%**.

Mqtizer - Cross-Platform MQTT Client for Industrial-Grade IoT Solutions [🔗](#)

- Gathered valuable user feedback and conducted thorough usability tests, leading to user-driven enhancements and improved app functionality, **enhancing user retention by 25%**.
- Designed and optimized commercial website and marketing collateral for MQTIZER

VisionarAI - AI for Visionaries [🔗](#)

Secured 2nd place in the "soonami.io GmbH Cohort 0 Hackathon"

- Crafted intuitive user-centric experience for VisionarAI, utilizing insights from Y Combinator resources, aiding founders in product discovery.
- Collaborated with developers to simplify complex features for user-friendly interfaces and seamless interaction.
